

Botron High Quality Adjustable wrist strap set with 6' or 12' standard coil cord design provides the performance and reliability of a metal band with the comfort of cloth. The B9008 adjustable wrist strap has the largest conductive area on the market. This blue knitted material has a soft outer area and the 5/8" conductive area on the inside. Unlike many others which have 3-5 rows of conductive thread, Botron=s has a 5/8" area of solid conductive material. Thus, a better contact area. **Disclaimer.** All statements of technical information are believed to be true and are based upon tests we believe to be reliable. CONDUCTIVE AREA CHALLENGE

5/8" versus 3-4 rows
 Many wrist straps have 3-4 rows of conductive threads. Botron has a 5/8" conductive area, providing better contact with the skin, better discharge, and less latent failures.
