

**Botron** High Quality D-RING heel grounders are made from the best products on the market. Our heel grounders have the largest cup design with better floor contact and better testing when soiled. With its dual layer construction non-marking interior and conductive outer surface is designed for long wear. The 18" conductive ribbon (snap-off tab) provides a safe static discharge to ground when tucked into your shoe. We sew our own products so we can make it any way you need. The **B7528** has D-Ring fastening system for comfort with a built in 1-megohm resistor, we also offer 2meg and no resistor products. **Disclaimer.** All statements of technical information are believed to be true and are based upon tests we believe

## PROPERTIES

## SPECIFICATIONS

<b>Sole Interior:</b>	Non-Marking
<b>Sole Exterior:</b>	<10s
<b>Material:</b>	Two layer rubber
<b>Ribbon:</b>	18" conductive
