

Botron's Conductive and Non-Conductive IC tube and tray straps are designed to group together IC tubes and trays. The Conductive straps will dissipate any static charges that would be on the trays. They can be used over and over and provide a good way to secure you products. **Disclaimer.** All statements of technical information are believed to be true and are based upon tests we believe to be reliable. The proper use and application for this product must be the responsibility of the user. The statements herein shall have no force or effect.

Installation:
 Insert hook end into D-Ring
 Pull tight around tubes or trays
 Hook together
